Strengths

Characteristics of a business which give it advantages over its competitors

Weaknesses

Characteristics of a business which make it disadvantageous relative to competitors

Opportunities

Elements in a company's external environment that allow it to formulate and implement strategies to increase profitability

Threats

Elements in the external environment that could endanger the integrity and profitability of the business

Context (why we need it)

- ✦ Market research
- ✦ Competition research
- ✦ Focus groups
- ✦ Gaps in the market
- ✦ Market potential

Strengths	Weaknesses
Characteristics of a business which give it advantages over its competitors	Characteristics of a business which make it disadvantageous relative to competitors
Opportunities	Threats
Elements in a company's external environment that allow it to formulate and implement strategies to increase profitability	Elements in the external environment that could endanger the integrity and profitability of the business

Discovery (finding it)

- ✧ Identifying potential
 - ✧ Searching the literature
 - ✧ Searching databases
 - ✧ Analyzing relationships
 - ✧ Culling candidates
