

Machine learning

- ✧ Artificial intelligence is about learning, reasoning and acting
- ✧ We are still trying to get the learning part down well
 - ✧ Learning innate patterns in data
 - ✧ Learning how an outcome is influenced by different factors
 - ✧ Learning to predict the future by observing the past
 - ✧ Learning to discern what is real and what is artifact

Machine learning success stories

- ✧ Breast cancer therapeutics
 - ✧ Bioinformatics used to understand innate differences in different types of BrCa, leading to very successful targeted therapeutics
 - ✧ Tamoxifen, Herceptin, Fluoracil, Paclitaxel
