

Biases and ethics

- ✧ Our learning is only as good as the training data that is used
- ✧ Training data is often biased
 - ✧ Funding biases
 - ✧ Historical biases
 - ✧ Incompatibilities

Biases and ethics

- ✧ Genomic and pathway databases ingest the scientific literature
- ✧ The relative volume of literature in various fields is driven by funding
 - ✧ Databases are biased to cancer, heart disease and diabetes
 - ✧ Good luck if you have a rarer disease to treat
